Equality
Freedom
Unity

On the 23rd of March 1940, we resolved to create our own separate homeland—to fight for equal rights and opportunities for all, to struggle for freedom from suppression, and to unite as one nation regardless of our diversities.

There's no better virtue than equality. There's no better gift than freedom. There's no better strength than unity. And EFU Life has always believed there's no better assurance of progress and prosperity than the protection of these values and principles.

We stand all the more resolute today, so you live all the more assured tomorrow.

EFU Life—Assuring Progress and Prosperity.
